Dispersion of herds with a 45 year history of sound, solid, continually improving background such as the G. W. Zinnel & Sons herd always leaves one with a sense of loss.

However, the time, patience and hard work of Pioneer Master Breeders such as G. W. Zinnel is not lost to the Livestock Industry because it is only in dispersions that other good breeders can obtain this kind of improving foundation breeding stock to improve their own herds.

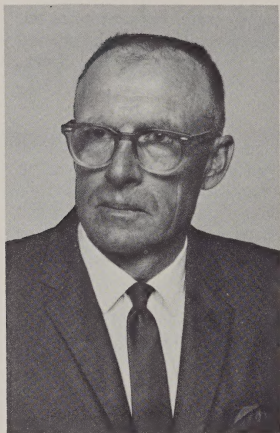

G. W. Zinnel has spent 55 years working with Shorthorns and 45 years developing this select Polled Shorthorn herd. The present show records, sale records, customer acceptance and satisfaction prove that he has built well and that the herd is now at its very peak. Unfortunately, G. W. Zinnel's health will not let him continue with the herd, therefore, it must now be dispersed.

We suggest that everyone study this catalog carefully. Rarely do you find two and three generations of nearly every family evident in the herd and sale. This is certainly the best record and recommendation to prove their breeding ability and merit. It also proves that superior producing cow herds are bred by a skillful breeder.

The Zinnels were fortunate to obtain Roan Ranger A 2nd x, their present senior herd sire. His record as a sire in this herd has been phenomenal and he must be rated as one of the great bulls of the breed.

We sincerely hope that everyone in need of good Polled Shorthorns will be at Gowrie, Iowa on March 12, 1974 to buy the superior results of 45 years of constructive breeding by a Master Breeder.

Albert J. Hamann, Sale Manager

G. W. Zinnel

**A PIONEER POLLED
SHORTHORN**

**MASTER BREEDER FOR 45
YEARS**

Here are some of his thoughts
with respect to his 55 years ex-
perience with Shorthorns:

My father bought a roan Shorthorn bull 55 years ago. This bull gave me a desire for Shorthorns. But he did have horns. We had plain grade Shorthorn cows. This bull did give us better calves.

Then 45 years ago we started to build a registered Polled Shorthorn herd. We soon had an opportunity to buy three granddaughters of Browndale Count. They were by Browndale Goldspur. The bull that Hopeleys sold in auction at Atlantic, Iowa. I am unable to give his exact price but it was during the depression and it was better than \$6,000.00. He was certainly one of the great bulls of the breed.

We bought our first registered Polled bull from Z. T. Dunham at Dunlap, Iowa. He was Rosann's Duke. This bull went on the scale at 2250 lbs. The one mistake we made was trying to have all Polled cattle too soon. We sold the Browndale heifers too soon. They would have been the right kind today.

Our love for Shorthorns has grown and they have been good to us. I am very glad that my sons and grandsons will continue breeding Polled Shorthorns. My health will no longer permit me to do so.

I predict the future will be very bright for the breeders who will have the right kind. We have qualities in Shorthorns we can boast about. We have never had need of a ring in a bull's nose. I don't think any other breed will gain as well on the same amount of feed.

It was our good fortune to be able to obtain Roan Ranger A 2nd x at the time we did. He is certainly a breed builder. We have shown and sold many winners and top selling bulls by him.

I assure you this is a clean cut sale with no reserves. You will not be disappointed in the quality you will find in this sale. We hope that those who buy at my sale will prosper with their purchases.

I have had the pleasure of meeting the finest people I have ever known in the Shorthorn business—meaning you, my Shorthorn friends.

STANDARD GUARANTEE

Recommended by American Shorthorn Association

- A. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age, shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
- D. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
- E. In the event an animal is returned by the buyer to the seller as a non-breeder the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such a certificate is required by the seller.
- F. All animals cataloged have been tested for T. B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.
- G. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females showing names and record numbers of sire and dam, as well as service date.
- H. All prospective buyers should check health requirements of their states. Health certificates will be provided with each lot sold.
